Dear John Ashcroft,

Re: 60 day comment period

Microsoft is the most respected company in the World.

Bill Gates is the most respected non plitical leader in the World.

Microsoft is successful because their products are the Best in the World.

Steve Balmer is the best CEO in the World.

Bill & Melinda Gates Foundation is the best foundation in the World.

Microsoft brings us the most valueable export dollars.

Please stop being the Puppet of Microsoft's competitors and be used in this shortsighted prosecution of an institution that is more American the the apple pie.

Please stop this Clinton's/Democrats' trend of Government controls everything + therefore we should kill the most successful in the market place.

Microsoft is America's flagship, a company dear to our hearts.

God Bless America
Thank you for everything John
